

# FORGOTTEN UTOPIAS OF HOUSING

International practical examples

Hard to believe today - there was a golden age of social and public building. As an archaeology of housing utopias, the series aims to focus on these phases in different countries. Our guests will present how programs of publicly financed housing with affordable rents for all were implemented and what the conditions were. The historical examples show how housing could also be organized in the future: affordable, social and public.

**SWEDEN - 26/05/2023 | Friday | 7:00 - 9:30 pm**

**Social housing in the 1 million housing program of the 1970s  
(Håkan Thörn & Dominika Polanska)**
